WS-5	Turntable Wall-Shelf	550x470x160/50	550x470x160/50 13 Kg	Black

The **WS-5** is a rock-solid platform delivering reference-level isolation at an attainable price, weighing in at a massive 13 Kg (28 lbs). Form follows function, the WS-5 **supports even the heaviest of turntables**. Heavy gauge steel for the perimeter and the massive wall plate are complemented by graceful touches adding air and life to what might otherwise have been a monolithic design. Rated to handle **up to 60 Kg** (130 lbs) with a large shelf (500 x 410 x 19 mm | 19.5" x 16.25" x 0.74"), the WS-5 works with almost any 'table made. Ridiculously sturdy, WS-5 touts a massive (50 mm | 2") tall by (25 mm | 1") thick steel outer frame welded to an extremely thick (150 mm | 6" tall) back plate. Ditto the proprietary Duraluminum isolation cones. **Leveling of the MDF shelf** (500x410x19 mm, laminate black finish) may be fine-tuned via the **four cone cups** using an Allen key (always included). The Italian-made WS-5 can even be mounted on brick and concrete provided you employ the proper connectors.

Our catalog is enriched with an essential and **innovative range** of supports designed to meet the most current needs of music lovers. Whether you already have a large collection of LPs, or you are just enriching it, whether you have a Hi-Fi system, or you are just setting it up step by step, this precious product range is a perfect solution for all ambients.

By depending on various LP's dimensions, **you can storage about 120 records per each level**. If your collection is too big, no worries: ask us for Extra-Kits able of expanding the available space.

The **frame** is made up of parts from our famous **S Series**, all the screws are galvanized, frame pillars are made of anodized aluminum, carefully filled with an **absorbent phono sponge** to dampen vibrations.

The various metal particulars are all galvanized and finished in powder-coated for avoiding any risk of rust over time.

The VL Series is composed of **MDF shelves - 1280x410 mm**, with a thickness of 22 mm - finished with high quality polymeric laminates in Walnut finish.

MOD.		RETAIL PRICE (TAXin.)

S2-4		EUR 399,99
S2-5		EUR 459,99

Stands specifically designed for essential solutions, available only with three, four or five-level configurations.

The **"S2 Series"** is our **entry-level product range**. This furniture is entirely modular and consists of shelves in MDF wood (580x430 mm, thickness 22 mm) in black melamine assembled on a metal frame of excellent Italian quality. The tubes are in anodized aluminum (30 mm in diameter); the screws, the upper and lower terminals made of galvanized metal (anti-rust), subsequently powder-coated; the traditional adjustable steel spikes (M8 of thread for eventual casters, not sold and not included).

Products always include our "S Series Pads - protective floor discs in Inox", for a perfect efficiency of the stand.

The article is designed to support and enhance audio components such as: turntables, digital sources / players, amplifiers, DACs, streamers, radios, signal equalizers and portable PCs (well placed on the top shelf).

It is not possible to modify the heights between the shelves with any customization kit.

Available only in black finish.

The “S3 Series” is our **reference range** of Hi-Fi racks.

These products are pure expression of our passion for music and, more in general, for the audiophile world.

All materials are carefully made and selected, combined for finest efficiency. **The frame** and its screws are made by galvanized metal parts, varnished with powder. Anodized aluminium for the poles, which are also filled with damping material (sound absorbing foam). On the bottom our historical spikes, in stainless steel (M8 of thread), always adjustable. **The shelves** (of dimensions 580x430 mm, with 30 mm of thickness) are in **ennobled MDF wood** finished with beautiful polymer laminate of superb quality.

The racks are all modular, each level's height can be customized (min 145 mm and max 365 mm) and it's possible as well to add extra shelves after the purchase.

Our “S Series Pads - protective floor discs” are always included into each S3 product.

A maximum of 60 kg can be loaded for each shelf. The power amp stands can support up to 120 kg.

The “**S4 Series**” is the alternative wide version of our traditional range of furniture for Hi-Fi and AV components.

Ideal as well for TVs within 49” of width. The inner shelves proportions are the same adopted for the S3 Series racks.

All the materials are carefully made and selected, exclusively of Italian origin. **The frame** is made by galvanized metal parts, varnished with powder, with screws and anodized aluminium poles filled with damping material (sound absorbing foam). The bottom spikes are our historical adjustable Inox tips (M8 of thread).

The shelves (of dimensions 1114x430 mm, with 30 mm of thickness) are in **ennobled MDF** wood finished with beautiful polymer laminate of high quality.

Since the racks are all modular, each level’s height can be customized (min 145 mm and max 365 mm) and it’s possible as well to add extra shelves after the first purchase.

Our “**S Series Pads - protective floor discs**” are always included into each S4 product.

"X Plate"'s dimensions of 450x405x19 mm

The "S5 Series" is the **most advanced** line between our "S Series" range of traditional audio furniture.

These racks are technically featured by their **double-adjustable-shelf system**: the lower shelves are supporting the higher ones. These small surfaces (called "X Plates") are positioned on the larger ones thanks to 4 aluminium cones per each level. Once regulated, every shelf is able of damping vibrations at its best thanks to our engineered system. **Highly recommended for turntable and tube amplifiers owners.**

The frame is made by galvanized metal parts, varnished with powder, with screws and anodized aluminium poles filled with damping material (sound absorbing foam). On the bottom there are our iconic adjustable

Inox spikes (M8 of thread).

The shelves (main: 584x430 mm, with 30 mm of thickness; "X Plate": 450x405, with 19 mm of thickness) are in **ennobled MDF** wood finished with beautiful polymer laminate of high quality.

Since the racks are all modular, each level's height can be customized (min 145 mm and max 345 mm) and it's possible as well to add extra shelves after the purchase.

Our "S Series Pads - protective floor discs" are always included into each S5 product.

The “HY Series” is our regular **Hyperspike range** with a four-pillar stainless steel frame configuration.

Since their launch in 2018, these **High-End racks** became popular in a few months and are the ideal choice for those who aim for an excellent stand with capacious shelves, heavy hardware parts and awesome finishes at an affordable price.

The frame is exclusively made by **stainless steel Inox parts** (40 mm of diameter) turned from full. The bottom parts are equipped by our traditional **adjustable inox spikes** (M8 of thread).

The shelves (dimensions of 600x500 mm for the “Standard” version; 780x500 for the “Large” one; 30 mm of thickness) are in **MDF ennobled wood**, lacquered in a beautiful flat black finish.

Since the racks are all modular, each level’s height can be customized (min 145 mm and max 325 mm) and it’s possible as well to add extra shelves after the purchase.

The “**HF Series**” is our famous and **historical Hyperspike line** with a four-pillar frame made of full stainless steel parts.

Introduced for the first time **in the audio market in 2006**, it is certainly an iconic symbol of our finest productions.

These incredible **High-End racks** are a guarantee for audio systems: a rock-solid stand of exceptional value with a design carved over time, of unquestionable Italian charm.

The frame is exclusively made by **stainless steel Inox parts** (40 mm of diameter) turned from full. The bottom parts are equipped by our **historical Hyperspikes**.

The shelves (dimensions of 645x561 mm, 30 mm of thickness) are in **MDF ennobled wood**, lacquered in three different beautiful finishes: flat black, gloss black and gloss white. The glossy finishes are very resistant against scratches.

Since the racks are all modular, each level's height can be customized (min 145 mm and max 365 mm) and it's possible as well to add extra shelves after the purchase.

The **HF Élite Series** is a **premium range upgrade** designed for enriching High-End audio systems.

A top class rack with **veneer wood** shelves in three beautiful finishes: American **Natural Walnut**, Indian **Rosewood** and Indonesian **Ebony Macassar** (with a gloss transparent varnish for an extra luxury effect).

The frame parts of these stands are the same adopted for the HF Series models.

Timber is a traditional material able of being valued in every ambient, whatever a living room, a music or studio room you choose as listening space.

Our aim is always to make products able of lasting in time, with beautiful look and design.

The “HW Series” is our top **Hyperspike** range for what concerns the **AV furniture** in our catalogue.

The simplicity of its design is based on the elegance and refinement of its lines. A rack capable of being placed perfectly in any space, whether it is a modern home or a more classic environment. It is no coincidence that it is the product most requested by architects and interior designers within our catalog.

Ideal for TVs up to 49 "in size, there is also compatibility with some 55" models for the "L - Large" version.

The frame is made by stainless steel hardware parts from our Hyperspike range and under request it is also possible to customize it with spikes for increasing the technical level for the High-End components.

The shelves (dimensions of 1090x410 mm for the “Standard” version; 1280x410 for the “Large” one; 30 mm of thickness) are in **MDF ennobled wood**, lacquered in three finishes: flat black, gloss black and gloss white. Since the racks are all modular, each level’s height can be customized (min 145 mm and max 245 mm without spikes; min 145 and max 345 mm with HY/HF spikes) and it’s possible as well to add extra shelves after the first purchase.
